- 1. Qualitative information about consolidated earnings results for the quarter under review
- (1) Explanation about consolidated operating results

In the third quarter cumulative period, the Japanese economy continued to face uncertainties such as reverse effect of last-minute surge in demand caused by the raising of the consumption tax rate and rising of raw material prices due to depreciation of the yen, but recovery were seen in corporate earnings and indicators reflecting the employment conditions thanks to the government's economic and monetary policy.

In the medical equipment industry, the remuneration for medical treatment in FY2014 seeks to establish a framework to provide healthcare services that meet the needs of Japan's aging society by focusing on challenges such as the differentiation and strengthening of medical institutions' functions, encouraging teamwork throughout Japan's medical network, and expanding home treatment. Medical institutions face ever greater demands for efficient, high-quality healthcare.

As a result, the Group posted a consolidated net sales of 71,889 million yen (up 2.3% on a year-to-year basis), operating income of 6,120 million yen (down 16.9% on a year-to-year basis), ordinary income of 6,881 million yen (down 6.3% on a year-to-year basis), and a net income of 4,077 million yen (down 17.0% on a year-to-year basis) in the third quarter.

- A. Physiological diagnostic equipment segment The sales of electrocardiographs, vascular screening systems and blood cell counters decreased. As a result, consolidated net sales were 18,498 million yen (down 7.3% on a year-to-year basis).
- B. Patient monitoring equipment segment
 Sales of patient monitoring equipment increased.
 As a result, consolidated net sales were 5,638 million yen (up 6.1% on a year-to-year basis).
- C. Medical treatment equipment segment
 While the business of renting medical equipment for home treatment and sales of pacemakers and
 Automated External Defibrillators (AEDs) increased.
 As a result, consolidated net sales were 31,041 million yen (up 6.6% on a year-to-year basis).
- D. Consumables and other products segment In this segment, we mainly handle recording paper, disposable electrodes, and consumables used for devices handled in the above segments, as well as maintenance and repair services. Consolidated net sales for this segment were 16,710 million yen (up 5.3% on a year-to-year basis).
- (2) Explanation about consolidated financial situation

Total assets were 113,822 million yen at the end of the third quarter under review, down 6,908 million yen from the end of the previous fiscal year.

The main factors are increase of 2,130 million yen in "Merchandise and finished goods" and 1,714 million yen in "Investment securities" despite a decrease of 10,853 million yen in "Notes and accounts receivable - trade" and 3,015 million yen in "Cash and deposits".

Liabilities amounted to 28,740 million yen, down 10,253 million yen from the end of the previous fiscal year.

This is primarily because of a decrease of 5,201 million yen in "Notes and accounts payable-trade" and decrease of 2,877 million yen in "Income taxes payable".

Net assets were 85,081 million yen, up 3,344 million yen from the end of the previous fiscal year. The main factors are an increase of 2,566 million yen in "Retained earnings" and 822 million yen in "Valuation difference on available-for-sale securities".

(3) Explanation about consolidated earnings forecast

As a forecast, gradual economic recovery is expected to continue, but some influence to the business environment such as the wake of the raising of the consumption tax rate and increasing resource prices are concerned.

Under these circumstances, we at the Fukuda Denshi Group, remain dedicated to contribute to medical progress and healthcare in general in accordance with our social mission in order to accommodate the needs of medical institutions that support regional medical services.

There is no change at this moment in the forecast of the financial results for the full fiscal year which we announced on May 15th, 2014.

The forecasted financial results described in this material are based on information available at the time of announcement. Actual results may differ from the results projected and presented hereby for a variety of reasons.

2. Summary information

- (1) Change in significant subsidiaries during the period Not applicable.
- (2) Application of special accounting methods for the preparation of the consolidated quarterly financial statements

Not applicable.

(3) Change in accounting policies, accounting projections, and restatement

(Application of Accounting Standards for Retirement Benefits)

Fukuda Denshi has applied the "Accounting Standard for Retirement Benefits" (Accounting Standards Board of Japan(ASBJ) Statement No. 26 issued on May 17, 2012, hereinafter, the "Accounting Standard for Retirement Benefits") and the "Guidance on Accounting Standard for Retirement Benefits" (ASBJ Guidance No. 25 issued on May 17, 2012, hereinafter, the "Retirement Benefits Guidance") from the first quarter of the current fiscal year with regard to the provisions stipulated in the text from Item 35 of the Accounting Standard for Retirement Benefits Guidance. Accordingly, the Company reviewed the calculation method of retirement benefit liabilities and service costs, changed the method of attribution period for estimated amount of retirement benefits from the fix-amount to the benefit formula, and changed the method of determining the discount rate from a method using the discount rate which are reflected the approximate number of years of payment and its amount of each year.

The company is complying with the transitional measures prescribed under Clause 37 of the Accounting Standards for Retirement Benefits regarding its application, and has adjusted the amount "Retained earnings" at the start of this consolidated fiscal year to reflect the effects of that change.

Consequently, 892 million yen in "Retirement benefit liabilities" decreased at the start of this consolidated fiscal year and "Retained earnings" increased 591 million yen.

The impact on profit and loss is minor.

(Application of Practical Solution on Transactions of Delivering the Company's Own Stock to Employees, etc., through Trusts)

Fukuda Denshi has adopted the "Practical Solution on Transactions of Delivering the Company's Own Stock to Employees, etc., through Trusts" (PITF No. 30 issued by the Accounting Standards Board of Japan on December 25, 2013) at the start of this consolidated fiscal year ending March 31, 2015. Accordingly, the company recognizes, at the time the company's own stock is disposed to trust, the difference on disposal, and posts gain/loss on sales associated with the shares sold by the trust to an employee stock ownership plan, dividends from the company for the shares held by the trust, and miscellaneous expenses concerning the trust to liabilities on a net basis. This change in the accounting policy was applied retroactively, and consequently, the consolidated financial statements for the third quarter of the previous fiscal year and for the full previous fiscal year present the results after the retroactive application.

The impact of retroactive application is minor.

3. Material events related to going concern assumptions Not applicable.
