#### 1. Operating results

#### (1) Overview of operating results

Although the Japanese economy has been gradually recovering during the consolidated cumulative second quarter (semi-annual) of this fiscal year (April 1<sup>st</sup>, 2024 through March 31<sup>st</sup>, 2025), there is still uncertainty about the future due to factors such as soaring resource prices influenced by the international situation and the monetary policy shift in Europe and America.

In the medical industry, it is now necessary to continue building systems to prepare for future infectious disease while advancing the promotion of medical DX for the digitalization of the medical field, and to establish an efficient framework to provide healthcare services that aligns with regional medical plans by enhancing the differentiation and functionality of medical institutions and promoting regional healthcare networks.

In such an environment, the Group posted consolidated "Net sales" of 64,314 million yen (down 3.3% year-on-year basis), "Operating profit" of 10,654 million yen (down 23.6% year-on-year basis), "Ordinary profit" of 11,262 million yen (down 20.1% year-on-year basis), and "Profit attributable to owners of parent" of 7,706 million yen (down 21.4% year-on-year basis) in the second quarter (semi-annual).
